/*
    We can't use keywords as varibale name.
    We can't use any special character in a varibale sign expect "$" (Dollar sign) and "_" (underscore).
    We can't start a varibale name with a digit.
    E.g.,    let a1 (valid)
             let 1a (invalid)
    We can only use (A-Z), (a-z), (0-9), and "$" and "_".
*/
