14     <h2 id="ov">Overview</h2>
15     <p>
16         Marvel's The Avengers (classified under the name Marvel Avengers Assemble in the United Kingdom and Ireland), or
   simply The Avengers, is a 2012 American superhero film based on the Marvel Comics superhero team of the same name. Produced
   by Marvel Studios and distributed by Walt Disney Studios Motion Pictures, it is the sixth film in the Marvel Cinematic
   Universe (MCU). The film was written and directed by Joss Whedon and features an ensemble cast that includes <a
   href="Avengers.html#im">Robert Downey Jr.</a>, <a href="Avengers.html#ca">Chris Evans</a>, <a href="Avengers.html#hu">Mark
   Ruffalo</a>, <a href="Avengers.html#th">Chris Hemsworth</a>, <a href="Avengers.html#bw">Scarlett Johansson</a>, and <a
   href="Avengers.html#he">Jeremy Renner</a> as the Avengers, alongside Tom Hiddleston, Clark Gregg, Cobie Smulders, Stellan
   Skarsgård, and Samuel L. Jackson. In the film, Nick Fury and the spy agency S.H.I.E.L.D. recruit Tony Stark, Steve Rogers,
   Bruce Banner, and Thor to form a team capable of stopping Thor's brother Loki from subjugating Earth. <br><br>
17
18         The film's development began when Marvel Studios received a loan from Merrill Lynch in April 2005. After the success
   of the film Iron Man in May 2008, Marvel announced that The Avengers would be released in July 2011 and would bring together
   Tony Stark (Downey), Steve Rogers (Evans), Bruce Banner (Ruffalo), and Thor (Hemsworth) from Marvel's previous films. With
   the signing of Johansson as Natasha Romanoff in March 2009, the film was pushed back for a 2012 release. Whedon was brought
   on board in April 2010 and rewrote the original screenplay by Zak Penn. Production began in April 2011 in Albuquerque, New
   Mexico, before moving to Cleveland, Ohio, in August and New York City in September. The film features more than 2,200 visual
   effects shots. <br><br>
19
20         The Avengers premiered at Hollywood's El Capitan Theatre on April 11, 2012, and was released in the United States on
   May 4, as the last film of Phase One of the MCU. It received praise for Whedon's direction and screenplay, visual effects,
   action sequences, acting, and musical score, and garnered numerous awards and nominations including Academy Award and BAFTA
   nominations for achievements in visual effects. The film grossed over $1.5 billion worldwide, setting numerous box office
   records and becoming the third-highest-grossing film of all time as well as the highest-grossing film of 2012. It is the
   first Marvel production to generate $1 billion in ticket sales. In 2017, The Avengers was featured as one of the 100 greatest
   films of all time in an Empire magazine poll. Three sequels have been released, Avengers: Age of Ultron in 2015, Avengers:
   Infinity War in 2018, and Avengers: Endgame in 2019.
